It is the responsibility of all Licensees to acquaint themselves with the trading regulations regarding their own specialist area and abide by them. - 7 Licensees that trade from gazebos or steel frame stalls must have gazebo weights on each gazebo leg or cross bar every trading day. The weights should be suitable for the weather conditions (this could vary in one single trading day) and appropriate for the type of stall. In windy conditions vehicles may not be used as a substitute for Licensees' gazebos or be used as an anchor/weight.
- 8 In the event that 30mph+ winds are predicted or occur during the market, Licensees may be required to roll gazebo sides or tarpaulins up. This is non-negotiable, and the Licensee must comply with this on request by the Council.
- 9 In the event that 40mph+ winds are predicted or occur during the market day, Licensees are not permitted to erect gazebos, tarpaulins on steel framed stalls, or awnings. Licensees' tables, products and all other items associated with their stall must be securely fixed down. This is non-negotiable, and the Licensee must comply with this on request by the Council. It is appreciated that adverse weather conditions could spoil stock. However, health and safety requirements are paramount, and restrictions are not enforced lightly, and are in place to ensure that the market is safe for all. If a Licensee fails to comply with the above requests, the trader will have their license reviewed and possibly suspended or even terminated. If the market team needs to close the market before 12.00 noon on the day due to adverse weather a full credit will be given to you. If it is after 12 noon, 50% of the pitch fee will be refunded.
- 10 Food traders are expected to:

 - E Food hygiene training and rating certificates must be available on request by the markets team at any time.
 - F Provide a food risk assessment, and this must be available on request by the Council.
 - G Register with the Environmental Health team in the district where the business address is located.
 - H Consider what is required to ensure that they maintain an adequate level of food and personal hygiene. This may include facilities for the hygienic washing and drying of hands, hygienic sanitary arrangements, sneeze guards etc.

The above requirements for food traders are non-negotiable.
